Position: Junior Software Developer (Blazor and C# Programmer)

PROFESSIONAL SUMMARY

Dedicated IT professional and Information Technology Instructor with five years of experience teaching Computer Programming, Information Management (MySQL), Introduction to Computing, and Computer Education. Skilled in problem-solving, software development fundamentals, and basic database management. Currently expanding expertise in C#, Blazor Web App, Entity Framework Core, API, and MySQL to build modern web applications. Passionate about continuous learning and eager to contribute technical skills to an organization and to a software development team.

TECHNICAL SKILLS

- System Designing
- Agile Methodology
- C#
- MySQL
- HTML, CSS, Bootstrap5
- Blazor Web App (ASP.Net Core 10)
- Git
- AI tools (ChatGPT)
- Basic Computer System Troubleshooting and Configuration
- Computer-related Standard Operating Procedures (SOPs) Documentation

SOFT SKILLS

- Communication – As an IT Staff and former I.T. Instructor, I regularly interacted with my colleagues and students.
- Self-Management - In my role as an I.T. Staff from my previous company, I was trusted to work independently.
- Optimistic – I am always looking for good possibilities and solutions in negative situations.
- Adaptable – I do not limit myself to a particular range of expertise.
- Proactive – I always find solutions to problems before they arise.
- Detail-Oriented – I make sure everything is accurate.
- Problem-solver – I solve problems using factual information, analysis, and critical thinking.
